2006

- Seats - 350
- Seating – 6,000 sf.
- Kitchen / Serving – 2,500 sf.
- Equipment Cost - \$790,000
- Renovation of an existing foodservice facility on the campus of Emmanuel College in Boston, MA. The new design created a free flowing, market style servery that included grill to order and pizza stations as well as an action station for freshly prepared daily specials. The design also included an after hours coffee shop/snack bar that shares the grill service area with the main servery to provide hot food items in a quick serve, extend hour format.
